Hotel Manager

### What was your experience with the set-up ?

The set-up was smooth. Joanne, who installed the tags and trained us on-site, did a great job. She made sure we knew how to use the software effectively. Top service, Joanne is also always ready to answer the phone and help with any questions we have.

### Had you any hesitations before purchase ?

I had some concerns about championing FireCloud365 and getting it installed in this hotel. I highlighted how it made fire safety checks easy and improved safety protocols. My endorsement of FireCloud365 convinced our General Manager to go ahead with the software.

### How has the intervention of FireCloud365 been ?

It's been a game-changer! With FireCloud365, we can streamline our daily fire walks and keep everything on schedule. We can also do preventative fire safety checks and maintenance checks more consistently. It's made our fire safety practices way better.

### What would you say to others considering FireCloud365 ?

I'd definitely recommend it! FireCloud365 has made a big difference for us. It's user-friendly and has all the features we need for fire safety management. If you want an easy and efficient way to handle fire walks and safety checks, go for it.

### How have your colleagues adapted to FireCloud365 ?

Everyone's been great with it! The best part is that all of our colleagues, from the boss to the cleaning staff, can access and use FireCloud365. It's made fire safety everyone's responsibility, and everyone has embraced it. It's become a regular part of our routine, and we're all on board.
